OBJECTIVE

Experienced React developer with 4+ years of building responsive, user-friendly web applications. Seeking to join an innovative team where I can apply my expertise in ReactJS, JavaScript, Redux, and modern web technologies to solve complex problems and deliver impactful solutions. Eager to grow technically while creating applications that exceed expectations and drive business value. I thrive in collaborative environments and enjoy turning design concepts into high-performance, scalable interfaces. With a strong focus on clean code and usability, I aim to build products that offer both technical excellence and great user experiences. Passionate about continuous learning, I stay up to date with the latest trends in frontend development.

SKILLS

Phần hình ảnh chỉ hiển thị tiêu đề SKILLS, không có nội dung bên dưới.

Education

BACHELOR OF SCIENCE IN COMPUTER SCIENCE 2013 - 2017

TopCV University

- Completed coursework includes Data Structures and Algorithms, Web Development, Database Management, and Artificial Intelligence.
- Final Year Project: Developed a web-based application using React.js and Node.js to automate student attendance tracking and analysis, which reduced manual input time by 50%.
- GPA: 3.7/4.0

Work experience

REACT DEVELOPER

July 2020 - Present

TopCV VinTech Corp

Responsible for the development of client-centric web applications using React.js, managing the lifecycle of several high-impact projects from concept to deployment.

Project: E-commerce Platform Revamp

- Led the redevelopment of a high-traffic e-commerce site, integrating React with Redux for state management, which resulted in a 40% increase in user engagement and a 30% faster page load time.
- Collaborated with UX/UI designers to implement a responsive design, enhancing mobile accessibility and improving overall customer satisfaction ratings by 25%.

Project: Real Estate Listing Application

- Developed key features for a real estate platform including advanced property filtering, Google Maps API integration for location-based searches, virtual tour capabilities using React 360.

JUNIOR REACT DEVELOPER

January 2018 - June 2020

TopCV Tech Pioneers Inc.

Developed user interface components and implemented the following well-known React.js workflows (such as Redux) to build scalable and maintainable software.

Project: Internal Tool for Project Management

- Played a key role in building a custom project management tool that improved project tracking and resource allocation, widely adopted internally.
- Leveraged React hooks to optimize application performance and simplify state management across multiple components.

Project: Fitness App Integration

- Collaborated with a team to integrate fitness tracking devices into a user-centric application, focusing on data synchronization and user analytics.

INTERN

June 2017 - December 2017
